

## ten23 health®'s Fairstainability Impact Report 2024 confirms its position as a world leader in sustainable pharma manufacturing

The report discusses ten23's continued progress, with multiple international certifications and SBTi target validation, demonstrating its commitment to ambitious climate targets.

**Basel, Switzerland, April 2 2025:** ten23 health® the human-centric and sustainable strategic contract development, testing and manufacturing organization in the pharmaceutical sector (CDTMO), and partner of choice for the pharmaceutical industry and biotech start-ups, is proud to announce a range of achievements and sustainability certifications.

ten23's latest [Fairstainability impact report](#) for the full year 2024 follows the Voluntary Sustainability Reporting for non-listed SMEs (VSME) disclosure standard to further enhance transparency on the environmental, social and governance (ESG) activities of the company, and provide a holistic and comprehensive view of its sustainability initiatives.

### Highlights include:

- **57% reduction in Scope 1 and 2 GHG emissions** by revenue compared to the 2021 baseline (achieving its 2025 goal one year early)
- **SBTi validation** for its science-based climate targets and completion of its double materiality assessments. This marks a significant milestone in the company's Fairstainability program, which is aligned with global efforts to limit warming to 1.5°C above pre-industrial levels. The SBTi targets include a short-term goal of a 42% reduction in GHG emissions by 2030 (fusing 2023 as the base year) and a net-zero target of reducing Scope 1, 2, and 3 emissions by at least 90% by 2050 or earlier.
- Earning the highest certification level (Green) from **MyGreen Lab** for its Basel development labs, with an outstanding overall score of 88.
- An **EcoVadis** score of 73 in 2025, placing ten23 in the **top 3%** of companies in the manufacture of pharmaceutical products and pharmaceutical preparations which are rated by EcoVadis.
- These achievements are alongside ten23 becoming the first sterile drug product CDMO to achieve **B Corp certification**, which was announced in August 2024.

*"All the actions and achievements in the report together with our focus on collaboration, underscore ten23 health's unwavering commitment to fostering a culture of sustainability in the Pharma sector. They reflect the organization's dedication to adopting and innovating eco-friendly practices and reducing the environmental impact of its operations and value chain. These accomplishments also reinforce ten23 health's commitment to holistic, tangible, science-driven environmental action,"* said Alissa Monk, Co-Fairstainability Lead, ten23 health.

As ten23 health celebrates these achievements, it remains steadfast in its mission to create a materially positive impact on society and the environment. These milestones signify the company's leadership in driving change towards a more sustainable future.

*"The SBTi approval and certifications with MyGreen Lab and Ecovadis are significant milestones for ten23 health. They reaffirm our company's dedication, leadership role and ambition to leave a heartprint in sustainable business in the Pharma and CDMO sector,"* commented Hanns-Christian Mahler, CEO of ten23 health.

### **About ten23 health**

ten23 health®, located in Basel and Visp, Switzerland, is the human-centric and sustainable strategic partner of choice for the pharmaceutical industry and biotech start-ups: we develop, manufacture, and test modern medicines. We support our clients in developing differentiated, stable, usable, and safe injectable treatment options for patients. ten23 health® combines the latest scientific findings with proven and tested world-class industry and regulatory expertise to forge new paths for supporting clients. We provide our innovative services in a fair and sustainable manner, respecting people's health and the future of our planet. ten23 health® is a B Corp member and solidly financed through the long-term commitment of 3i Group, an internationally reputable equity partner.

### **About the company's name**

The numeric value for the number of molecules in a sample of one mol is called Avogadro constant and equals  $6.022 \cdot 10^{23}$ . Gram quantities of material contain the incredible number of  $10^{23}$  atoms, which was an important discovery to understand the composition of matter: The world is built from small units, and not a homogeneous mass.

### **About 3i Group**

3i is an investment company with two complementary businesses, Private Equity and Infrastructure, and invests in mid-market companies headquartered in Europe and North America. 3i's Private Equity team provides investment solutions for growing companies, backing entrepreneurs and management teams of companies with an EV typically between €100m - €500m. 3i backs international growth plans, providing access to its network and expertise to accelerate the growth of companies across the consumer, healthcare, industrial and private label, and services and software industries.

### **About My Green Lab**

[My Green Lab Certification](#) is considered the gold standard for laboratory sustainability best practices around the world and is recognized by the United Nations-backed Race to Zero campaign as a key measure of progress towards a zero-carbon future. It is also [recommended](#) by the US EPA, reinforcing its integrity and transparency. The program provides scientists and the teams that support laboratories with actionable ways to make meaningful change.

### **Science Based Targets initiative (SBTi)**

The Science Based Targets initiative (SBTi) is a corporate climate action organization that enables companies and financial institutions worldwide to play their part in combating the

climate crisis. Science Based Targets initiative (SBTi) is a corporate climate action organization that enables companies and financial institutions worldwide to play their part in combating the climate crisis. They develop standards, tools and guidance which allow companies to set greenhouse gas (GHG) emissions reductions targets in line with what is needed to keep global heating below catastrophic levels and reach net-zero by 2050 at the latest. The SBTi is incorporated as a UK charity, with a subsidiary SBTi Services Limited, which hosts our target validation services (together with SBTi, the “SBTi Group”). Partner organizations who facilitated SBTi’s growth and development are CDP, the United Nations Global Compact, the We Mean Business Coalition, the World Resources Institute (WRI), and the World Wide Fund for Nature (WWF). ### **EcoVadis**

EcoVadis provides the leading solution for monitoring sustainability in global supply chains. Using innovative technology and sustainability expertise, they strive to engage companies and help them adopt sustainable practices. EcoVadis’ business sustainability ratings are based on international sustainability standards such as the Ten Principles of the UN Global Compact, the International Labour Organization (ILO) conventions, the Global Reporting Initiative (GRI) standards and the ISO 26000 standard. The ratings provide an evidenced-based analysis on performance and an actionable roadmap for continuous improvement. More information here: [ecovadis.com](https://ecovadis.com)

### **B Corp**

B Corp is a prestigious certification for companies that meet rigorous standards of social and environmental performance, accountability, and transparency. Certified by the nonprofit B Lab, this certification evaluates a company's impact on all stakeholders, including workers, customers, suppliers, communities, and the environment. To achieve the certification, companies must undergo a comprehensive assessment, which includes modifying their legal governing documents to prioritize stakeholder interests alongside profits. This legal commitment ensures that the company considers the broader social and environmental consequences of its decisions. Certified B Corps are also required to publicly disclose their performance in key areas, fostering transparency and trust with consumers.
